In this paper, an original MODEL BASED APPROACH to MVS. Based on that experience, a simulation model was Á developed that Q: Highlight current word in select list to be I have a select list which is populated by data from a mysql database. When i select an item from the list, it loses its selected attribute. How can i highlight the current selected word so when i change select list item, it is highlighted? Part of the select list html: prepare('SELECT role FROM roles'); \$stmt->execute(); while(\$row = \$stmt->fetch()) { echo "\$row[role]"; } ?> A: Use CSS to style the current option. \$options = "foo"; \$select = "" . \$options. """; This would set the color of the options you're currently selecting. A: just highlight the current option, in this case, change \$row[role] to
