If you're already familiar with Assassin's Creed, you might struggle to explain what makes Syndicate so great. The game is set a full two years after the first game in the series, and follows the legacy of a man who is out to prevent the rise of one of Europe's most influential groups, the Templars. To do so, he enlists the help of a young woman who plans to wipe the Templars from history. If you're keen to jump straight into Syndicate, you can do so today on all platforms. You'll need a Ubisoft account to download, but don't worry, everything you need to log into the game is available through the one-time download.

[Odyssey] is getting plenty of love. It's one of Assassin's Creed's most successful games to date, and even came close to knocking the original out of the top spot. As Odyssey is set in its own world, this isn't a sequel to Origins, but feels like it's its own distinct experience. It feels like a necessary expansion, and an excellent one. [Assassin's Creed Syndicate is available on PC, PS4 and Xbox One. You can download and play it on all platforms right now using a few simple instructions. It's completely free to play on the following platforms: All you need to do is to insert a game disc on your platform and follow the onscreen instructions. Assassin's
